

Renewable Electricity Certificate

Netwise Hosting Limited

Adalta Energy certifies that Netwise Hosting Limited is supplied with 100% renewable electricity through the purchasing of Renewable Electricity Guarantee of Origin (REGO) certificates for the period below:

1st Apr 2026 - 31st Mar 2027

The renewable electricity was sourced from either wind, solar or hydro electricity generators.

Renewable	0g CO ₂ /kWh	A
Low Carbon/CCS	<200g	B
Gas CHP	<300g	C
CCGT Gas	<400g	D
UK Average/Gas	<800g	E
Coal/Oil	<800g	E
Coal	>800g	F
Coal	>800g	G

- **Ultimate REGO traceability:** REGOs specified to the assets above have been retired directly into the Netwise Hosting Limited account registered with Ofgem.
- **Regulatory compliance:** Off-supply REGO management fully complies with Greenhouse Gas Protocol (GHG) Scope 2 reporting.
- **Zero Carbon Market-Based Reporting:** purchasing REGOs from wind, hydro and solar generators supports zero carbon market-based reporting.
- **Audit Trail and Control:** Facilitates independent verification through the Ofgem register audit trail.
