

Up to
10% Vitale Vert

Certificate of origin

The electricity chosen by

INFRASTRUCTURE SWITZERLAND COLO SARL

Ch. du Pré-Fleuri 20 / CH-1228 PLAN-LES-OUATES

is composed of up to 10 % of Electricity Vitale Vert, supplied from local solar power and ecological hydropower sources in compliance with the demanding ecological criteria of the Swiss label **naturemade star**. The surplus of electricity is generated from Swiss hydropower plants.

The independent auditor SGS regularly checks SIG's energy accounts. It guarantees the compliance of the supply and the sale as well as the accuracy of the accounts and, consequently, the fact that the equivalent of each customer's consumption has indeed been injected into the electricity network.

This certificate was registered with the number 2038874

Valid from 01.01.2025 to 31.12.2025

Geneva, 28th January 2025
