

Green Power Pass 2025 Letter of Attestation

For the calendar year 2025 Iron Mountain Data Centers procured qualified renewable energy in an amount equal to one hundred percent (100%) of the total Data Center's annual electrical consumption, this includes one hundred percent (100%) of the power delivered by Iron Mountain Data Centers to their customers.

Scope Calendar Year: 2025

Customer / Account	Customer Scope 2 MWh	Customer Scope 3 MWh	Customer Total MWh	Site	Address
Leaseweb Deutschland GmbH	9,303	3,571	12,874	FRA-2	Heinrich Lanz Alee 47 Frankfurt, Germany
Leaseweb Netherlands B.V.	40,348	14,536	54,884	AMS-1	J.W. Lucasweg 352031 BE Haarlem, Netherlands
Leaseweb Singapore Pte. Ltd.	4,366	1,747	6,113	SIN-1	1 Serangoon North Ave 6 Singapore 554502
Leaseweb UK Ltd.	3,309	1,323	4,632	LON-1	724-729 Dundee Road Slough, SL1 4JU, UK

Iron Mountain represents and assures that we adhere to the FoIP white paper guideline when reporting our own Greenhouse Gas emissions to CDP, RE100, SBT or our GRI reporting. Specifically, we report the energy/carbon impact of customer IT load as our scope 3 and the remaining Data Center's annual electrical consumption as our WRI Scope 2 emissions. Following this protocol ensures that there is no double accounting for scope 2 emissions and carbon reductions.
