EQUINIX MADRID DATA CENTERS

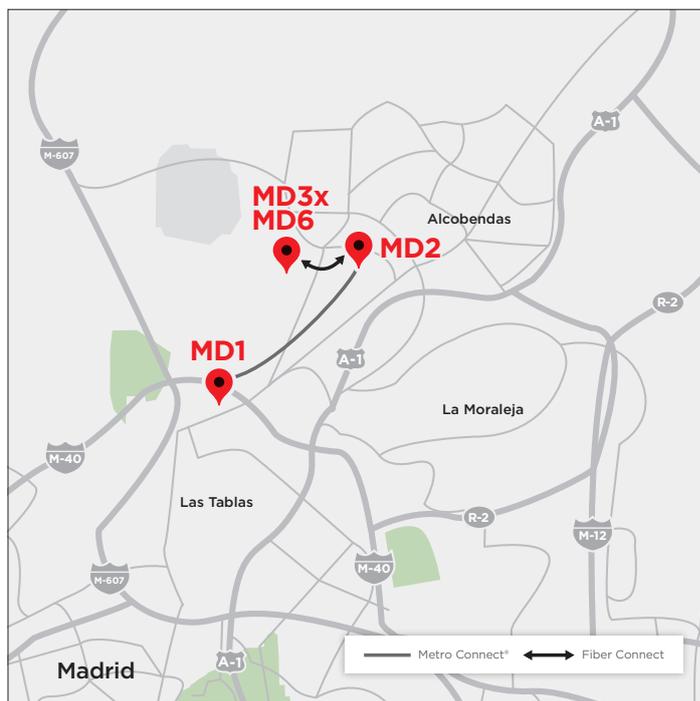

Equinix is the world's digital infrastructure company™. Digital leaders harness our trusted platform to bring together and interconnect the foundational infrastructure that powers their success. Our Madrid data centers are business hubs for 195+ companies. Madrid customers can choose from a broad range of network services from 50+ providers, and they can interconnect directly to customers and partners in their digital supply chain.

The capital of Spain, Madrid (and surrounding region) is home to more than 6.5 million inhabitants and is the center of government for the country. Equinix has four state-of-the-art data centers (three International Business Exchange™ and one xScale™ facility) in Madrid, representing the most connected carrier-neutral facilities on the Iberian Peninsula. Cloud connectivity is a key feature within the metro, with more than 55 different cloud service providers operating from within Equinix International Business Exchange (IBX) data centers. This includes both local providers as well as the global players such as AWS, Microsoft and Google.

MADRID IBX BENEFITS

- Connect to cloud and network services locally and globally via Equinix Fabric™.
- Interconnect with the largest industry ecosystems on Platform Equinix®.
- Local connections to 50+ network service providers.
- Direct connections to Equinix Internet Exchange® as well as ESpanix and DE-CIX for internet peering.
- Flexible configurations and power densities up to 10 kVA per cabinet.
- Powered by 100% renewable energy.

MD1 is situated approximately 14km from Madrid International Airport and within 10 minutes, walk of the Madrid subway train network.

IBX TECHNICAL SPECIFICATIONS

Building

Space

Colocation Space	18,686 ft ² (1,736 m ²)
Building Type	Concrete structure
Parking	Adjacent to building (no charge)

Floor

Floor Type	Raised
